

ANKIT DEVENDRA JETHAVA

Ahmedabad, Gujarat

9328063509 ankitjetyz@gmail.com

Personal Summary

Solid foundation in core computer science subjects, with expertise in programming languages including Java, C++, and C. Strong problem-solving skills developed through competitive programming and logical thinking exercises. Experience in backend development using Java and Spring Boot, alongside knowledge in computer networks, architecture, and database management systems. Passionate about continuous learning and hands-on experimentation in various computing domains, including cyber-security.

Skills

- Programming Languages: Java, C++, SQL, JavaScript
- Web Technologies: React.js, HTML, CSS, Tailwind CSS, Next.js
- Development Tools: GitHub, VS Code, Figma, Framer
- Soft Skills: Problem solving, Teamwork, Communication, Event organization, Time management, Public speaking
- Backend development

Experience

Guidopia 01/2026 - Current

Intern | Remote, India

- I am working on a Career DNA assessment platform that helps students discover suitable career paths based on their personality, interests, and skills.
- The system collects responses through a structured questionnaire and generates a personalized career report with insights and learning recommendations.
- My role involves developing the frontend interface, developing backend logic, implementing the assessment flow, and enabling report generation features.

Interuship Studio 06/2025 - 07/2025

Intern | Remote, India

- I created a report for the final submission of my summer internship.
- Performing brute force attacks using an application called Burp Suite.
- Performing cross-site scripting XSS on free and learners websites by entering different payloads and scripts.

Education

Nirma University Expected 01/2028

Ahmedabad, India

Bachelors of Technology: CSE

- Currently, I am studying core subjects such as Database Management Systems, SQL, Java, C++, Computer Programming, and Mathematics, along with technical subjects including Computer Architecture (CA) and Data Communication (DC).
- In addition to my technical coursework, I am also pursuing minor subjects like Economics and the Indian Constitution.
- CGPA: 9.1

The Maharaja Sayajirao University of Baroda 2021 - 2025

Vadodara, India

Diploma: Information Technology

- Studied computer networking fundamentals, including network architectures, protocols and security measures to ensure reliable and safe data communication along with having a good proficiency in multiple programming languages such as Java, C and Python.
- CGPA: 9.3 / 10

Shree Ambe Vidhyalaya 01/2022

Vadodara, India

SSC

GPA: 89.9 / 100

Projects

BookMyTurf [2025 - 2026]

- A real-world start-up system that allows users to check available time slots, book turfs online, and manage reservations efficiently, reducing manual booking and scheduling conflicts.
- Along with that it organizes tournaments and further willing to collab with sporting brands.
- User registration and secure login system.
- Real-time turf availability and slot booking.
- Easy reservation management for users and administrators.
- User-friendly interface for quick browsing and booking of turfs.
- Centralized database to store user details, booking records, and turf information.

GeoMent [2025]

- Android-Based Automated Attendance and College Task Regulator.
- This project helped me gain hands-on experience with mobile development, backend integration, and working with real-time databases and cloud storage.
- Developed an Android application for online student attendance tracking using Java, Firebase, and Cloudinary.
- Allows students to mark attendance only when they are within a specific geolocation radius set by the teacher.
- Features a secure login system and role-based access (Student/Teacher).
- Includes geolocation-based attendance verification.
- Uses Firebase Firestore for real-time data storage.
- Integration with Cloudinary for storing medical certificates.

Hobbies and Interests

- Reading
- Travelling & Exploring New Places
- Creative Arts
- Public Discussions & Community Engagement
- Cricket & Outdoor Sports
